OUR OBJECTIVE

To continue to serve our customers effectively by supplying the best on-site service in the industry, we are proud to introduce a rental service on all of the equipment that you will need to complete even the biggest job. Our mission is to have the equipment delivered **on site, on time and in proper working order**, while offering competitive rates.

TERMS AND CONDITIONS

Charges are for the rental of the equipment only and are subject to change without notice.

All rates are F.O.B. our location, however delivery is available.

The Lessee is responsible for the care and maintenance of the equipment during the rental contract. The Lessee is also liable for the security of the equipment until it has been returned to the lessor. Having requested a pick-up does not constitute for being in the Lessor's possession.

Minimum rental is one day. A "day" is defined as one 24 hour period. The rental period ends when the equipment is either returned to the Lessor's office location, or a call for pick-up has been made.

The Lessee will be responsible for ensuring that the equipment is operated by a qualified personnel. Our trained staff will be pleased to explain the operation of any tool we are to rent to you. You will be responsible for ensuring that you have adequate insurance coverage.

During the time period in which the rental equipment is in the Lessee's possession, the Lessee further agrees that the Lessor be exempt from all liability concerned with the operation and security of the rented equipment. The Lessee hereby agrees that no responsibility will be attached in any way to the Lessor during the rental contract between the Lessee and the Lessor.
